# COMPANY OVERVIEW

At XSTRUCTURES, we have built our reputation on delivering innovative, reliable, and forward-thinking engineering software solutions. As industries evolve and the demand for sustainable infrastructure grows, we are proud to expand our expertise into a new and impactful venture — XSTRUCTURES SOLAR ENERGY SOLUTIONS.

Xstructures Solar Energy Solutions specializes in supply, installation, and support of professionally engineered solar energy systems designed to deliver reliable power, reduce electricity costs, improve energy resilience, and support a more sustainable future.

Our approach combines engineering precision with environmentally responsible practices, ensuring that every solar installation is not only efficient but also built to last. Our solutions are developed around each client's actual energy requirements, site conditions, available installation area, operational priorities, and long-term financial goals. We combine engineering expertise, careful system planning, quality equipment, and professional installation to deliver systems designed for safety, reliability, and long-term performance.

We specialize in on-grid, off-grid, and hybrid solar solutions, using trusted global brands and advanced technologies. Our systems feature high-efficiency solar inverters, intelligent energy monitoring systems, and battery-ready and scalable designs.

From residential rooftops to commercial and industrial facilities, we help clients gain greater control over their energy use while reducing dependence on conventional grid electricity.

We believe that clean energy is not just an option — it is the future. By integrating advanced solar technologies with our strong foundation in structural design, we deliver solutions that maximize performance, durability, and long-term value.

More than solar installation. A complete energy solution engineered around you.

OUR FUTURE:

**ENGR. JOHN PAUL DELA ROSA**  
DIRECTOR / CEO

**ENGR. MOSES SYDNEY RUIZ**  
SOLAR PV PROJECT ENGINEER

**ENGR. MIGUEL GENSEN TEMARIO**  
SOLAR PV DESIGN ENGINEER

**ENGR. JON IVAN TERRORA**  
SOLAR PV SITE SUPERVISOR / DRONE ENGINEER

**ENGR. APOLINARIO CORONADO JR.**  
PROFESSIONAL ELECTRICAL ENGINEER

**JUSTIN VINCENT CANAOAY**  
SOLAR SENIOR ELECTRICIAN

**LIAH AJOS MONTES**  
AFTER-SALES SUPPORT ENGINEER

**JERICK MACARO**  
SOLAR JUNIOR ELECTRICIAN

**RAELE MAE BUETA**  
SALES ASSOCIATE

**PETUS PAGHUBASAN**  
SOLAR PV INSTALLATION FOREMAN

**WILMER POSADAS**  
SOLAR PV INSTALLATION TECHNICIAN

**JOHN RON MENDOZA**  
SOLAR PV INSTALLATION TECHNICIAN

**RUSSEL BALIDIO**  
SOLAR PV INSTALLATION TECHNICIAN

**RONALDO MENDOZA**  
DRIVER

**JOEL ANONICAL**  
DRIVER

# SERVICES

- Grid-tied solar PV systems
- Hybrid solar systems with battery storage
- Off-grid solar energy systems
- Residential solar installations
- Commercial and industrial solar solutions
- Energy consumption and load assessment
- Site inspection and technical evaluation
- Solar access and shadow analysis
- System sizing and engineering design
- Equipment supply and professional installation
- Testing, commissioning, and system turnover
- Performance monitoring
- Preventive maintenance and after-sales support

## WHY CHOOSE US?

### ENGINEERING-LED SOLUTIONS

Every system begins with a proper assessment of the property, energy demand, electrical conditions, and installation requirements.

### SOLUTIONS BUILT AROUND ACTUAL CONSUMPTION

We recommend system capacities based on real energy-use patterns—not one-size-fits-all packages.

### DETAILED SITE AND SOLAR ANALYSIS

Site geometry, orientation, roof conditions, surrounding obstructions, sun path, and potential shading are evaluated before finalizing the system layout.

### QUALITY SYSTEM COMPONENTS

We use carefully selected solar panels, inverters, batteries, mounting systems, and protection devices from established manufacturers.

### PROFESSIONAL INSTALLATION

Our team follows proper installation, electrical safety, testing, and commissioning procedures.

### RELIABLE AFTER-SALES SUPPORT

Our relationship with the client continues after installation through technical assistance, system monitoring, inspections, and maintenance support.

# PROJECT WORKFLOW

## CONSULTATION AND ENERGY ASSESSMENT

We review the client's electricity consumption, objectives, operating schedule, and expected future requirements.

## SITE INSPECTION AND TECHNICAL SURVEY

Our team evaluates available installation areas, roof or structural conditions, electrical systems, access, orientation, and possible obstructions.

## SUN-PATH AND SHADING ANALYSIS

We evaluate the site's solar exposure, sun path, orientation, and potential shading throughout the year to identify suitable panel locations and improve expected energy production.

## SYSTEM DESIGN AND PROPOSAL

The appropriate system type, capacity, equipment, layout, expected production, potential savings, and project scope are developed.

## ENGINEERING AND INSTALLATION

The system is installed according to the approved design, technical specifications, and applicable safety requirements.

## TESTING AND COMMISSIONING

System performance, protection devices, electrical connections, monitoring functions, and operating conditions are checked.

## TURNOVER AND CLIENT ORIENTATION

The client receives system documentation and guidance on operation, monitoring, warranties, and maintenance.

## AFTER-SALES SUPPORT

Our team provides continuing assistance to help maintain safe and reliable system performance.

# SOLAR SITE MODELING AND SHADING ANALYSIS

Using reality modeling and sun-path simulation, we assess roof geometry, available installation area, solar exposure, and potential shading to develop an efficient and site-specific solar panel layout.

## RESIDENTIAL

# POWER YOUR HOME WITH GREATER SAVINGS AND ENERGY CONFIDENCE.

Our residential solar solutions are designed around the household's consumption, roof conditions, available budget, and desired level of energy independence. Clients may choose grid-tied, hybrid, or battery-supported configurations depending on their priorities.

## COMMERCIAL AND INDUSTRIAL

# TURN ENERGY COSTS INTO A LONG-TERM BUSINESS ADVANTAGE.

For commercial and industrial facilities, we develop scalable solar solutions designed to reduce daytime electricity costs, support operational continuity, and improve long-term energy planning. Each recommendation considers the facility's load profile, available space, operating hours, technical constraints, and potential expansion.

# VALUE PROPOSITION

## ENVIRONMENTAL IMPACT

Solar power reduces dependence on fossil fuels and lowers greenhouse gas emissions like CO<sub>2</sub>, sulfur oxides, and nitrogen oxides

## COST SAVINGS

Solar panels generate electricity from sunlight, reducing your reliance on grid power and cutting monthly utility costs

## INCREASED PROPERTY VALUE

Homes with solar installations often sell at a premium — studies show an increase of value in properties that has solar installations

## SUBJECT TO THE CONDITIONS STATED HEREIN:

- The granting of this Business Permit is a mere privilege and not a right. Violation of any Pasig City Ordinance or prevailing laws immediately revokes your permit to conduct business in the City of Pasig.
- This Business Permit together with the current Business Registration Plate shall be posted or displayed for public view at the place where the business is conducted, pursuant to Sections 115 and 117(d) of the 2017 Revised Pasig Revenue Code.
- This Permit is non-transferable. The same shall expire on the 31st of December of the current year, unless sooner revoked for cause.
- BPLD Inspectors and other duly-authorized persons of the City Government of Pasig shall be allowed entry to the establishment pursuant to Section 123 of the 2017 Revised Pasig Revenue Code.
- The issuance of this Business Permit is subject to the submission of the valid BFP-Fire Safety Inspection Certificate and other valid, updated and relevant local and national permits and licences within sixty (60) calendar days from date of issue of this Business Permit, otherwise, this Permit is deemed automatically cancelled or revoked.
- Permittee is required to renew and update its business registration and permit within the prescribed period, and failure to do so shall subject the taxpayer to a 25% surcharge on the amount unpaid, plus 2% interest per month.

Approved by:

RONALDO L. HIDALGO  
OIC-Permit and Licensing  
Operations Division

HON. VICTOR MA REGIS N. SOTTO  
City Mayor

For and By the Authority of  
The City Mayor:

ATTY. CHRISTIAN B. VILLAR  
Officer-In-Charge, BPLD

ERASURE AND/OR ALTERATION WILL INVALIDATE THIS PERMIT

registration information by filing BIR Form No. 1905.

4. For Self-Employed Individuals (SEI) whose gross sales and other non-operating income do not exceed the VAT exempt threshold and who opted to avail of the 8% income tax rate, the tax type percentage tax (PT) shall not be reflected in the Certificate of Registration (COR). However, at the start of each taxable year, such SEI shall be automatically subjected to graduated income tax rates and required to file quarterly.

I hereby certify that the above named person is registered as indicated above, under the provision of the National Internal Revenue Code, as amended.

## CERTIFICATE OF INCORPORATION

KNOW ALL PERSONS BY THESE PRESENTS:

This is to certify that the Articles of Incorporation and By Laws of:

### **Xolar AI Inc.**

were approved by the Commission on this date upon the issuance of this Certificate of Incorporation in accordance with the Revised Corporation Code of the Philippines (Republic Act No. 11232), which took effect on February 23, 2019 and copies of said digitally signed and digitally authenticated Articles of Incorporation and By Laws automatically form part of the records of the corporation in the Commission.

This electronically issued digital Certificate grants juridical personality to the corporation but does not authorize it to issue, sell or offer for sale to the public, securities such as but not limited to, shares of stock, investment contracts, debt instruments and virtual currencies without prior Registration Statement approved by the Securities and Exchange Commission; nor to undertake business activities requiring a Secondary License from this Commission such as, but not limited to acting as: broker or dealer in securities, government securities eligible dealer (GSED), investment adviser of an investment company, close-end or open-end investment company, investment house, transfer agent, commodity/financial futures exchange/broker/merchant, financing/lending company, and time shares/club shares/membership certificate issuers or selling agents thereof; nor to operate a fiat money to virtual currency exchange. Neither does this Certificate constitute a permit to undertake activities for which other government agencies require a license or permit.

This Certificate **DOES NOT AUTHORIZE INVESTMENT SOLICITATION AND INVESTMENT-TAKING WITHOUT A SECONDARY LICENSE FROM THIS COMMISSION.**

As a registered corporation, it shall submit annually to this Commission the reports indicated at the back of this certificate.

This Certificate is issued at The SEC Headquarters 7907 Makati Avenue, Salcedo Village, Barangay Bel-Air, Makati City, 1209, Metro Manila, Philippines, on this day of 16 July Two Thousand Twenty Six.
